Calculator and Quick Reference Guide: Rental Income

Please use the following calculator and quick reference guide to assist in calculating rental income from IRS Form 1040 Schedule E. It provides suggested guidance only and does not replace Fannie Mae or Freddie Mac instructions or applicable guidelines. This method should not be used when calculating rental income on a borrower's primary residence. Check applicable guidelines when rental income is declining year to year. Please check with your own legal advisors for interpretations of legal and compliance principles applicable to your business.
